Summary

Full Stack Developer experienced in modern web technologies, specializing in building scalable, responsive, and high-performance applications. Passionate about innovation, clean code, and end-to-end product development. Proficient in MERN stack and cloud deployment, with a focus on delivering user-centric solutions.

Experience

Digitalize The Globe (DTG)

Web Developer

Pune

July 2024 – Present

- Developed and deployed scalable web applications using the **Next.js**, **Node.js**, and **MySQL** stack with an emphasis on modular, maintainable, and high-performance code.
- Created responsive and visually appealing UI components with **React.js** and **Tailwind CSS**, ensuring a seamless experience across all devices and browsers.
- Designed and optimized secure RESTful APIs and backend workflows using **Express.js** and **Sequelize ORM**, improving application performance and stability.
- Architected database schemas and optimized queries in **MySQL** and **PostgreSQL**, enhancing data handling and retrieval efficiency.
- Developed and maintained multiple production-level projects:
 - **Accountants Tech Labs**: A professional platform for accounting services with secure login, CMS, and user dashboards; built using **Next.js**, **Node.js**, and **MySQL**.
 - **Realtra Spaces**: A feature-rich real estate website with advanced property search, IRR/ROI calculators, and developer portals; developed with **Next.js**, **Tailwind CSS**, and RESTful APIs.
 - **Property Drone Realty**: Real estate listing platform integrating **Google Maps API**, **custom filters**, and **secure authentication** for buyers and agents.
 - **Universal Dashboard System**: A dynamic dashboard framework capable of generating custom APIs, fields, and modules dynamically with full CRUD operations and multi-method support (**GET**, **POST**, **PUT**, **DELETE**).
- Collaborated closely with cross-functional teams including UI/UX designers, backend developers, and business analysts to deliver complete end-to-end solutions.
- Worked in Agile methodology with regular sprint planning, code reviews, and feature releases.

Technical Skills

- **Frontend**: Next.js, React.js, Angular.js, TypeScript, JavaScript (ES6+), Tailwind CSS, SCSS, Material-UI, Bootstrap, HTML5, CSS3
- **Backend**: Node.js, Express.js
- **Database**: MongoDB, PostgreSQL, MySQL
- **State Management**: Redux, Context API
- **Other Tools**: Git, GitHub, Bitbucket, Postman, Jira, Agile Methodologies
- **Deployment & Hosting**: AWS (EC2), VPS, Vercel, Netlify

Certifications

- Full Stack Developer – Ongoing (Self-Driven Projects and Deployment)

Education

Rajiv Gandhi College of Engineering and Research (RGCER)

B.E. in Computer Science and Engineering

Nagpur

July 2019 – May 2023

Shri Jayantrao Wanjari Junior College

Science Stream (Higher Secondary)

Nagpur

July 2017 – March 2019

Achievements

- Led development of 5+ full-stack projects including **Property-Drone** and **GreekArray**, enhancing performance, UX, and backend reliability.
- Improved API response times by 40% and user engagement by 25% through optimized database queries and scalable UI design.
- Successfully deployed high-availability apps using **AWS**, **Vercel**, and **Netlify**, ensuring 99.9% uptime.
